Leadership in Project Management for Development
17 – 21 FEBRUARY 2020, 8:30 AM to 5:30 PM • AIM Campus, Makati City

Course Overview
The success of a project relies on the competence of its Project Manager. Leadership in Project Management for Development (LPMD) is a five-day course designed to enhance the competencies of Project Managers (or those planning to become one). The course covers the key responsibilities and competencies required to lead and implement public and private sector projects.

Course Outcomes
At the end of the 5-day course, each participant will have sharpened their skills and learned how to use the tools required of an effective Project Manager, which include:

- project management and communication
- managing project teams
- project controls
- project implementation
- procurement and contract administration
- project completion

Who Should Attend
Project managers, Development Practitioners, Project Analysts, Specialist, Project Implementation Officer, Project supervisors, development administrators, project planners, etc.

What You Will Learn
- Performance Management System
- Change Management
- Bridging Leadership
- Monitoring and Evaluation
- Innovative Project Tools
