

Lean Six Sigma Yellow Belt Certification

Improve efficiency, maximize performance

Lean Six Sigma Yellow Belt Certification

Improve efficiency, maximize performance

PROGRAM OVERVIEW

The Lean Six Sigma Made Easy: A Lean Six Sigma Yellow Belt Certification Online Training Program introduces process management and essential tools of Six Sigma. This training equips participants with a robust understanding of the framework, metrics, tools, techniques, and primary improvement methodologies.

This four half-day online course is designed to guide participants on how to integrate Six Sigma methodologies for the improvement of operational aspects and transactional systems to drive business results and meet customer expectations.

Lean Six Sigma Yellow Belt (LSSYB) is an execution technique adopted by frontliners or those directly involved in the job to put into action the strategy of continuous improvement with sponsorship from the top.

LSSYB is the quickest and most impactful approach to eliminate or reduce non-value adding activities in the company's processes and business model. The process flow will be smoother, responsive, and faster – resulting in cost savings, productivity, efficiency, and improved customer satisfaction both internally and externally.

Participants will be studying various case studies and examples of the DMAIC (D-Define, M-Measure, A-Analyze, I-Identify, C-Control) methodology. Participants will not only gain the necessary skills to identify, monitor, and control wastages in their own processes but they will also be prepared to provide feedback to management on next-level system projects.

PROGRAM OBJECTIVES

At the end of the program, the participants should be able to:

- Understand how Lean Six Sigma Yellow Belt (LSSYB) can improve processes in the organization to achieve a competitive advantage.
- Learn and apply the LSSYB techniques by identifying and then eliminating wasteful activities to improve flow.
- Equip participants with individual skills in critical thinking and problem solving as applied in business operations.
- Undergo the process and implementation of a Yellow Belt project.

PROGRAM FEE

PHP 23,000 or approximately 414*

*Final USD amount may vary based on the exchange rate at the time of payment.

Interested in early bird or group discounts?

We'd be happy to discuss flexible payment terms with you—just let us know!

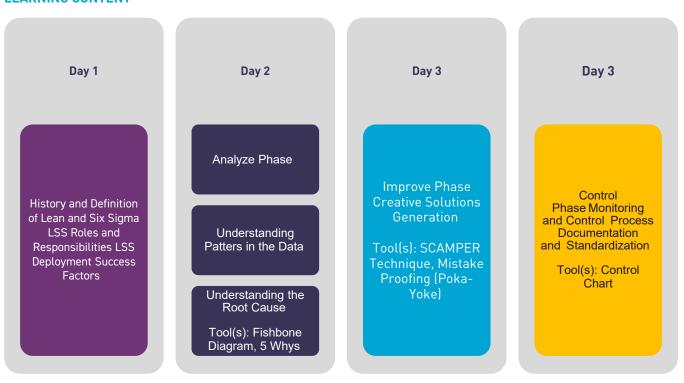

WHAT WILL YOU LEARN

- The YB-DMAIC Roadmap made easy
- Understanding the 5 principles of Lean (Customer Value, Value Stream, Pull, Flow, and Perfection)
- Project Definition (i.e., Project charter)
- Understanding the Voice of the Customer and Critical to Quality
- Basic Statistics (i.e., Descriptive Statistics)
- Understanding the high-level map (i.e., SIPOC Map)
- Understanding the As-Is detailed process map (i.e., Cross-functional deployment map/VSM)
- Understanding the DATA (e.g., Basic descriptive stats, Pareto Chart, Time Series Chart)
- Identification of Process Wastes
- Identification of Top Root Causes (i.e., Cause and Effect Diagram, 5Whys)
- Benefit Assessment in Lean Six Sigma Project
- Brainstorming Technique
- Solutions Prioritization Matrix, Impact, and Effort Grid
- Pilot Study
- Control Plan
- Visual Management System
- Individual Control Chart

LEARNING CONTENT

WHO SHOULD ATTEND

This program is ideal for executives, managers, supervisors, and individual contributors across industries who are responsible for making decisions and solving business challenges. It is designed for professionals seeking to strengthen their critical thinking skills, enhance problem-solving capabilities, and drive effective outcomes in their roles

YOUR PROGRAM FACULTY

Edgar D. FloresAdjunct Faculty
Asian Institute of Management

Edgar "Ed" Flores is a project manager, coach, consultant, trainer, leader and mentor of continuous improvement for many years in multi-national companies like Mitsumi, Essilor, Pfizer and Shell with project experiences across various industries and functions, including manufacturing, BPO, pharmaceutical, finance, sales, marketing, operations, logistics, HR, IT and procurement.

A practicing Master Black Belt, Ed has been instrumental in the deployment of continuous improvement programs in ESSILOR-OPTODEV manufacturing plants, in Pfizer's commercial operations offices located in 13 countries across Asia, and in Shell's finance operations in the Asian region. Apart from being an adjunct professor at the Asian Institute of Management, Ed is also a Lean Trainer at the Philippine Institute of Supply Management and the Founding Managing Consultant of INNOSIGMA Consulting. He is also an external consultant in Lean Six Sigma at the British Standards Institution.

Earning a SEELL Postgraduate Certificate and Diploma

SEELL offers Postgraduate Stackable Certificate Courses in various areas of concentration and discipline, which build an individual's qualifications and distinguish their professional value. It enables professionals to develop their proficiency in diverse areas of concentration in a personalized and more manageable manner.

By successfully completing SEELL's programs, credentials can be earned over time, stacked towards earning a Postgraduate Certificate in an area of their choice, and, ultimately, a Posgraduate Diploma in Management. This leads to more career opportunities, advancement, and potentially high-paying jobs.

EARNING CREDENTIALS

Successfully completing the program earns participants **one (1) unit** to be credited in a Postgraduate Certificate program. Participants will also earn **one (1) unit** which can be credited to the Postgraduate Diploma in Management.

Postgraduate Certificates require five (5) units earned within two (2) years.

The Postgraduate Diploma in Management requires a total of twenty (20) units earned within three (3) years

ELIGIBLE PROGRAMS

For guidance on other eligible programs for Postgraduate Certificates and on designing your learning journey with SEELL, please email us at SEELL@aim.edu or visit our website at https://executiveeducation.aim.edu
