

Institutions, Authority and Political Systems in Governance

Equipping leaders to govern effectively in complex environment

Overview

The program will examine how authority across sectors could constrain how public organizations manage the new Grand Challenges in public administration. Participants in this course will learn how to lead and manage public organizations through systemic change in institutions and the long-term effects of governance structures across sectors.

Objectives

At the end of the program, the participant should be able to

- Develop understanding of institutional and cross-sector authority in public administration
- Explore intergovernmental, intra-governmental, and extra-governmental relations
- Integrate comparative government, political systems, and institutional authority
- Enhance skills in managing public organizations and stakeholders

What Will You Learn

- Types and Sources of Public Authority
- Non-State Actors in Global Governance
- Comparative Political and Government Systems
- Lobbying, Influence, and Political Advocacy
- Interest Groups and Collective Action
